

NOMINAL WOOD BLOCK SIZE – 2 3/4" x 2 3/4" x 9 1/2". Minimum width and body height allowed in the stock class is 2 1/2" and minimum length is 9 1/4". Special note: shorter lengths to simulate a 23' coach will be allowed unless they show an advantage in which case they will need to be in a separate class, but it is anticipated they will be slower.

WHEELS (6) – 1 1/4" maximum diameter, tread width less than 1/2". Wheel spread must be greater than 1 1/2" and less than 1 3/4". Unmodified Pinewood derby racing wheels ref. # P347 provided are the only wheels allowed in the stock class.

COACH CLEARANCE – Minimum clearance is 3/8" due to track center guide. Can be more than 3/8" if you wish.

STARTING DEVICES – Coach must be free wheeling (**No Starting Devices**)

MAXIMUM WEIGHT – One Pound

PAINTING – Like your GMC motor home, but it is your choice. However for best results apply several coats of sanding sealer and sand with a fine grade of sandpaper followed by two coats of paint, then a coat of wax and polish.

AXLE – Washers should be placed between the wheel and the coach. Note the axle grooves are a bit deeper than necessary. Suggest you embed axles in a thick adhesive such as RTV too get the desired appearance and align axles.

LUBRICANTS – NO liquids or sprays – (they make the track messy). Dry types only will be allowed.

CLASSES – Specified stock class rules will be checked at "check-in". All rules are waived for unlimited class.

ADDITIONAL RACE RULES – Everyone must have their own car. Decision of the judges is final.
